Asia Le

Plano, TX | 512-743-8894 | asia.hoamai.le@gmail.com

Early-career analytics professional with Databricks, AI-assisted SQL, dimensional modeling exposure, and digital BI reporting experience. Skilled in translating stakeholder needs into validated dashboards and actionable metrics. Adept at connecting technical findings to operational and strategic outcomes.

TECHNICAL SKILLS

Data & Modeling: SQL, Databricks, star schemas, medallion architecture, Python, R

BI & Analytics: Power BI, Tableau, Google Analytics, Google Tag Manager, dashboard QA, KPI reporting, Excel

Business Analysis & Analytics Delivery: Requirements Gathering, Exploratory Data Analysis (EDA), Stakeholder Engagement, KPI Definition, Data Validation & QA, Dashboard Design, Cross-Functional Collaboration, Project Coordination

PROFESSIONAL EXPERIENCE

Qorvo — Digital Strategy Analytics Intern, Marketing | Jun 2026 – Dec 2026 (expected)

- Partner with web developers and business units to develop dashboards covering website, campaign, and document/download engagement; define usable reporting views and filters.
- Explore Databricks star schemas and bronze/silver/gold layers; generate, modify, and execute SQL with Genie AI to investigate relationships and reporting logic.
- Investigate API calls and Google Tag Manager events to support consistent historical reporting across website versions 1.0 and 2.0.
- Own dashboard organization and QA; coordinate stakeholder reviews, milestones, and delivery; perform ad hoc Google Analytics reporting and inspect GitLab/GitHub queries.

TVEND Smart Vending Solutions LLC — Business Operations Analyst | Dec 2024 – June 2026

- Analyzed sales and inventory to optimize pricing and restocking, improving route efficiency by 15%.
- Built operational dashboards tracking fees, expenses, and margins to support business decisions.

Black Box Corporation — Process Analyst Intern | May 2023 – Aug 2023

- Analyzed cross-functional engineering workflows to identify process inefficiencies, operational bottlenecks, and opportunities for improvement.
- Developed and maintained standard operating procedures (SOPs) and process documentation using SharePoint and Microsoft Visio to improve workflow consistency.
- Mapped existing business processes and documented standardized workflows to support operational improvements across teams.

Acima Credit — Digital Product Assistant | Aug 2021 – Jun 2022

- Analyzed transaction data to identify potential fraud patterns and support business performance reporting.
- Managed Agile product backlogs and sprint timelines using Jira, collaborating with teams to support product development and delivery.

EDUCATION & CERTIFICATION

University of Texas at Dallas — M.S., Business Analytics & Artificial Intelligence | Expected Dec 2026

University of Texas at Dallas — B.S., Information Systems & Technology | May 2024

Business Decision Analytics Certificate | Dec 2025

SELECTED PROJECTS

Price Sensitivity & Customer Loyalty | Python, SAS

- Applied logistic regression and statistical tests to assess delivery-fee sensitivity and loyalty-program impact; developed business recommendations.

Real Estate Price & Performance Trends | SQL, R

- Cleaned and analyzed property data; compared regression, clustering, and decision-tree models and validated performance.

AI Code Optimization: Automated Testing Workflows | Python, TensorFlow, Selenium

- Developed and documented machine learning prototypes to automate code optimization and testing workflows, focusing on performance and reproducibility.
